

## ABOUT THE 911 CELL PHONE BANK

In May of 2004, the 911 Cell Phone Bank was created to provide an ongoing and readily available source of 911 cell phones and funds to meet unexpected and urgent needs of participating law enforcement and affiliated victim services agencies.

Since its inception, the 911 Cell Phone Bank has generated hundreds of thousands of dollars and provided thousands of cell phones for victim services organizations nationwide. We have successfully relieved the operational burden of managing a 911 cell phone program from our participants.

The 911 Cell Phone Bank is a nationwide program designed to maximize community cell phone donations. To best accomplish this, the 911 Cell Phone Bank has turned to RMS Communications, one of the nation's largest cell phone recyclers.

Since the first cell phone was created, thousands of different models from scores of manufacturers have been produced and with each new year comes hundreds of new models. For the laymen, distinguishing the value of donated cell phones is impossible, for the experts at RMS, it's our business.

Generous donors are well wishers; their desire is that the receiving organization gets the most value out of their donation. Our knowledge of the cell phone market allows us to determine how your cell phone donations can be maximized; providing 911 cell phones **and** funds for participating organizations.

By donating your cell phone you are doing more than just providing emergency communications for someone in need. You are helping to provide funds that support the activities of law enforcement and victim's services organizations nationwide.

## PARTNERS

The National Association of Triads goal is to reduce crime, and the unwarranted fear of crime that seniors often experience.

The National Sheriffs' Association provides criminal justice practitioners useful resources, technical assistance, and congressional advocacy.

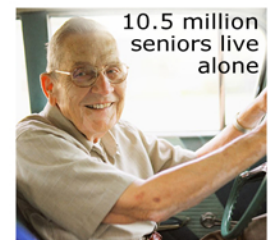

The Florida Network of Victim Witness Services provides support for advocates in the field of Victim Assistance and Witness Management.

# BENEFITS

The 911 Cell Phone Bank provides your organization with an important tool to use in your community. The 911 Cell Phone Bank also gives you a no investment revenue stream which requires minimal resources, and provides environmental benefits to the entire community.

## Below are some of the benefits of participating in this program:

- ☀ Help provide Free emergency phones for senior citizens and victims of abuse
- ☀ Little time required-no phone testing or taking inventory
- ☀ Give back to the community by providing a valuable service
- ☀ Free shipping on all collected phones
- ☀ Keep hazardous cell phone waste out of the landfill
- ☀ Give your community a responsible recycling option
- ☀ Online access to collection and payment history.
- ☀ Help provide affordable wireless access to developing countries

The National Association of Triads, Inc., a subsidiary of the National Sheriffs' Association, is a proud partner of the 911 Cell Phone Bank. NATI encourages all TRIAD organizations and victim services agencies nationwide to support this initiative. Doing so will ensure that law enforcement nationwide will have the resources to better serve their communities.
