## *~PRESS RELEASE~*

### **Pearl Road (U.S. 42) Resurfacing Project**

- The City of Brunswick, working in cooperation with the Ohio Department of Transportation (ODOT), will be performing asphalt pavement resurfacing and base repairs on Pearl Road (U.S. 42) between 1,450 feet north of Sleepy Hollow Road and Boston Road. MED-U.S. 42-23.02 (Pearl Road) – PID 112568 is being coordinated by ODOT. The project will consist of removal of asphalt wearing course, concrete and asphalt base repairs, and asphalt pavement resurfacing, along with curb and drive apron repairs and addition of sidewalk. These improvements will extend the lifetime of the roadway and improve rideability. Also, pedestrian accessibility and safety will be enhanced.
- Traffic on Pearl Road (U.S. 42) will be maintained in both directions during all phases of construction. The project will be performed in two sections. Section I will consist of all work south of Center Road (S.R. 303) while Section II will consist of all work north of Center Road (S.R. 303). In each section, Phase 1 of construction will maintain one northbound and one southbound lane of traffic on the existing pavement as the pavement is replaced in the southbound curb lane. Phase 2 of construction will maintain one northbound lane and one southbound lane on both the curb lanes while work is performed on the center turn lane. Phase 3 of construction will maintain one northbound and one southbound lane of traffic on the new pavement as the pavement is replaced in the northbound curb lane. Access to all businesses and residences on Pearl Road will remain open at all times.
- Please contact the City of Brunswick Engineering Department at 330-558-6880 with any questions or concerns.
- **Project Schedule:**
  - ❖ Design Complete – December 2021
  - ❖ Project Award – February 2022
  - ❖ Construction Begin – April 2022
  - ❖ Construction Completion – June 2023
- **Estimated Construction Cost:**
  - ❖ \$5,420,235.00
